Report of Board of Selectmen

To the Citizens of Easton:

We respectfully submit our report for the year ending December 31, 1933.

With the period of depression still in evidence during 1933, the Federal Government for the first time came to the direct relief of the various States and municipalities by the establishment of the Federal Emergency Relief Act. Under this Act our community received a direct gift of $5028.46. Under the same provision of law, clothing, various food stuffs and fuel have been distributed throughout the community by our Board of Public Welfare; the mention of which is due to the fact that the personnel of both Boards is the same.

The establishment of the Citizens Conservation Corps (C.C.C.) by the Federal Government whereby single young men, betwen the ages of eighteen and twenty-five years, were sent to reforestation camps at a monthly compensation rate of $30.00 out of which $25.00 has to be allotted to their families, alleviated, as far back as June, to some extent the burden of our Welfare Department. Preference in this Corps was first given to the young men whose families had been helped by our Welfare Department.

The establishment of the Civil Works Administration (C.W.A.) in November 1933 by the Federal Government made an appreciable reduction on our relief rolls. As of December 1, 1933 no one was receiving relief where there was any male in the family who was old enough and physically able to work.

In 1933 our Legislature enacted "The Municipal Loan Act", Chapter 307 of the Acts of 1933, whereby a city or town could borrow "a sum not exceeding the excess of the amount expended by such city or town in the year 1932 over that of the year 1929 for public welfare, including mothers' aid, old age assistance, and soldiers relief, and issue notes of the city or town therefor payable within a period of five years with interest". Under this Act the loan could be treated as an estimated receipt to reduce the tax rate. This Board did not avail itself of the opportunity of borrowing under said Act for the reasons — 1. Until any loan has been paid in full with interest (and borrowings were at the average rate of 4 to 4½) no appropriation by any city or town would be valid without the written approval of the Emergency Finance Board of the Commonwealth. 2. Until a city or town has paid back all principal and interest under any borrowing, no money would be allocated to such city or town under the Federal Emergency Relief Act referred to previously. If the Town had borrowed under this Act our tax rate in 1933 would undoubtedly have been reduced, but necessarily would have been increased during the following five years (so far as this borrowing was concerned) within which time the loan would have to be retired. The Board felt that the best interests of the Town would be served by not going into debt by borrowing under this Act.

The dispensing of Soldiers' Relief is a function of the Selectmen. In 1933 we had fifteen cases on this Department; all with Easton settlement, five of which resided outside of our Town. The entire cost of this Department is borne by local taxation. The outlook for 1934 as to the cost of this Department depends to a great extent upon the return of normal economic conditions.

HIGHWAY DEPARTMENT

In 1933 as in the two previous years, a great many citizens received work through our Highway Department which helped to reduce, to some extent, at least, the unemployment situation so far as they were concerned: an itemized account of which will be found in the Accountant's Report.

The following streets were re-treated with oil: Foundry Street from Prospect Street to the Five Corners; Purchase Street from the State Highway to the Maplewood Farm; and the entire stretch from Prospect Street to the old school house on Howard Street. The small section of Purchase Street from Washington Street to Turnpike Street was permanently surfaced. Prospect Street was regravelled and widened from Howard Street to the Bay Road.

The ties were removed from the road-bed of the Eastern Massachusetts Street Railway on Main Street from Daley's Corner to the Brockton line and through South Easton and Eastondale and the bed surfaced with gravel.

The usual patching of permanent surfaced roads continued in 1933.

Columbus Avenue Extension, as accepted in 1933, was excavated, stone refilled and gravelled. This was virgin territory and proved to be quite an expensive undertaking.

In conjunction with the Department of Public Works of the Commonwealth, a distance of approximately two thousand and eighty (2080) running feet was constructed on Foundry Street, West from the railorad. A new bridge was built as part of this project, replacing the previous narrow bridge at this section. The entire cost of this project was $10,998.12. The original estimate was $12,000.00. The bridge as let out to contract by the Department of Public Works cost $3137.09. This particular project was very much needed - - a very narrow and dangerous bridge was replaced and several bad curves were eliminated. The

Commonwealth bore one-half of the cost of the entire project.

A reinforced concrete drain was installed on Day Street from the residence of Dr. Robert E. Porter to Center Street, and South on Center Street to the brook near the residence of Harris A. DeWitt. Five catch basins were installed at Lothrop's Corner (Depot and Turnpike Streets) and a drain installed to the brook on Sand Street from this point. A reinforced concrete drain was also installed on Main Street West of Daley's Corner.

The usual cutting of brush on our highways was taken care of this year as previously.

Under the Civil Works Administration the Town Hall has been repainted inside and outside and a new metal ceiling installed. Our highway garage has been repainted. Several buildings at our infirmary have been reshingled as well as one-half of the roof on the highway garage. A considerable amount of painting has been done for the School Department; a considerable portion of Rockland Street has been re-widened and two new bridges installed; likewise two new bridges have been constructed on Massapoag Avenue, which should take care of the needs of this section for a great many years. The corner at Jenny Lind and William Streets has been widened, the land being donated to the Town by Mrs. Mary Hanlon and the members of the Swedish Luthern Parish, for which on behalf of the Town we express our appreciation. A much needed improvement has been made in cutting back the corner of North Main and Canton Streets. Work also has been done on Holmes Street Extension. Main Street has been widenend from Daley's Corner to the Brockton line in the area where the car tracks were. As this report goes to press, some of these projects are still being worked on.

The entire personnel of our Fire Department established in 1931 consists of thirty-five men; twelve of whom are assigned to the South Easton and Eastondale section. The piece of apparatus in this section is housed in the garage of John B. Howard at the South Easton Green which is insufficient in space for a proper fire station. There is no provision for meetings, drills, storage of equipment, etc. Permanent housing is necessary to insure continued interest by the members of this department.

The police car has been in use for a considerable period of time and as a matter of efficiency and economy we recommend a new motor vehicle, radio equipped, for this Department. We also recommend a sufficient appropriation for fuel for this car so that it can be used for patrol purposes throughout the Town to a greater extent than in previous years.

The reduction in expenditures in our various forms of relief in 1934 depends to a great extent upon the attitude of the Federal Government towards the continuance of the Civil Works Administration and the Civilian Conservation Corps as well as the revival of general business.

The amount Easton received from the State Income Tax in 1933 was $5836.00 less than in 1932. In 1932 the Town received $5061.49 from the Gasolene Tax. Nothing was received from this source in 1933 as this revenue was transferred to the general fund of the Commonwealth to reduce the State tax. Our proportion of the State tax in 1933 was $660.00 less than in 1932. It is estimated that the State tax for 1934 will be practically double that of 1933 unless a transfer in the neighborhood of $10,000,000.00 is made from the State Highway Fund to the State General Fund.

We wish to take this opportunity to thank the townspeople for their assistance and cooperation, particularly those who have aided materially their fellow members of our community without any expectancy of publicity. To Miss Maude Bulmer and Mrs. Irene Earle we personally express our appreciation for the generous assistance given to this Board as well as to the Welfare Board.

Respectfully submitted,

Joseph W. Linehan, Chairman,
Leonard H. Porter,
Leon C. Prior,
Selectmen of Easton.

Report of Board of Public Welfare

To the Citizens of Easton:-

During the year 1933, aid was given through this department to 124 cases outside of the Town Infirmary. This number is exclusive of 31 cases receiving Old Age Assistance.

Of the number of cases aided, 101 had Easton settlement, the entire cost being borne locally, except for two cases of "Mothers' Aid" for which the State pays our Town Treasury one-third of the cost. Eleven were State cases for which the State reimburses in full, and twelve cases had settlement in other municipalities for which the local treasury will be reimbursed.

Improvement was shown in the general situation late in the year, even before the C.W.A. had begun to operate, the monthly cost of the department in November being $1038.61 as compared with $2245.50 in April.

It is impossible to forecast accurately the needs of this department for 1934 because of our dependence upon the speed with which recovery is attained, and also upon the future of C.W.A., and other forms of relief from agencies which are not local.

OLD AGE ASSISTANCE

At the close of 1933 thirty-one cases were being aided through this agency. One third of the amount expended will be refunded by the Commonwealth, and the local treasury will receive reimbursement in full in four cases where the settlements are in other localities.

INFIRMARY

Six male and two female inmates were cared for at the Infirmary during 1933. At the close of the year four males and two females were inmates.

All deliveries of wood to welfare cases have been made by the Warden of the Infirmary. This comprised a large percentage of the fuel used in these cases.

Duplicating our experience of 1932, a large vegetable garden was operated at the Infirmary for the purpose of raising Winter vegetables to be distributed. This plan was again successful, and potatoes, squash, etc., have been delivered to many families together with provisions furnished by the Recovery Board.

Purchases as follows have been made from merchants at the choice of the recipients:

First National Stores, 110 Main Street	$ 894.96

Respectfully submitted,

LEONARD H. PORTER,
JOSEPH W. LINEHAN,
LEON C. PRIOR,
Board of Public Welfare.

Report of Finance Committee

In submitting this report we would again emphasize that it is impossible to correctly anticipate the needs of the town especially in respect to emergencies and welfare requirements.

It is necessary to do the best we can, taking into consideration the trend of events and the definite requirements which involve extra appropriations at certain periods.

ELECTION EXPENSE

Is an item of the type referred to and it is, of course, definitely affected by election frequency. In the present year there will be primaries and state elections which involve additional expense before and at the polls and also with the registrars of voters. The present estimates are based on previous years when similar elections have been held.

FIRE DEPARTMENT

An examination of the itemized report of the Town Accountant reveals the fact that the members of the fire department are giving generously of their time and effort without adequate personal compensation. In consideration of this fact and in further consideration of what it means to property owners, it is incumbent upon the town to amply provide practical working equipment and facilities. As a slight contribution to growing and maintenance your committee recommends an increased appropriation of $300.00 over 1933.

We understand that other problems in respect to the fire department may be presented as special articles in the warrant.

THE MOTH DEPARTMENT

This department has been habitually cut below the recommendations of the superintendent and also of your Finance Committee, creating a situation most alarming in respect to many very extended areas of woodland and neighboring farms and gardens.

The principal scourge is the gypsy moth. We are raidly approaching an experience which already confronts many town which have curtailed unwisely in appropriations for moth control and which now are being taxed to raise vastly greater amounts than would have been necessary if a reasonable annual appropriation had been continued. We should not continue to pursue a course which is already proving disastrous.

POLICE DEPARTMENT

Protective features in respect to suppression of crime have not kept pace with the present-day methods of escape. In a country town the lone patrolman on foot is woefully incapable of rendering the service required and is moreover indequately equipped to protect himself and others in the performance of his duty.

A special article in the warrant provides for a cruising car with constant police radio contact which will be invaluable in helping to cover large and widely scattered areas which are entitled to a reasonable and previously unheard of measure of service.

An extra officer is also needed but appropriation for it is not recommended at this time. In the recommendations of this committee at this time we have endeavored to provide a reasonable sum to cover operating expenses of a new car and to provide more adequate police equipment in shape of gas, fire arms, etc. We must not blindly ignore the desperate changes which are taking place around us in respect to crimes of thievery, arson and violence.

PUBLIC WELFARE, OLD AGE ASSISTANCE AND SOLDIERS' RELIEF

In 1932 the total cost of the above departments was $26,882.65. In 1933 it was $27,417.83, -- far in excess of appropriations which were made in anticipation of requirements.

Governmental activities have greatly relieved the situation for the present at least and the total appropriation for these three departments for 1934 is $23,900.00.

SCHOOLS

Your school committee have made reductions in the last two years amounting to approximately $20,000.00 and their recommendations are in line with present relationship requirements as to conforming with the average of towns of the state.

TOWN INFIRMARY

A larger number of inmates are now at this institution than has been the case for many years. The Warden's activities have also been directed in many other channels of dispensing public welfare. In consideration of the services required, the department is relatively inexpensive.

TREE DEPARTMENT

For several years this appropriation has been cut. We have forty miles of shade trees in this town.

Old age requires removal of many trees. Others are in nuisance or dangerous locations in consideration of present methods of travel. Danger to the public exists in many cases. The town liability for accidents is present and it is poor judgment to be unmindful of these things. It is expensive and dangerous work to remove trees from difficult locations and to do it limb by limb.

IN CONCLUSION

As tax payers like yourselves we would like to slash these appropriations right and left. We cannot ignore those conditions which compel us to attempt to exercise fair judgment in meeting existing contingencies and avoiding adopting a policy of present-day economy which will cause increasing expense in other directions and in other times.

Report of the Town Clerk

WARRANT FOR ANNUAL TOWN MEETING, 1933

COMMONWEALTH OF MASSACHUSETTS

Bristol, ss.

To either of the Constables of the Town of Easton in the County of Bristol, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections and town affairs, to meet in the Town Hall in said Easton on Monday, the sixth day of March next, at eight o'clock P.M., then and there to act upon the following articles:

Article 1. To see if the Town will accept the reports of the Selectmen, Assessors, Board of Health, Board of Public Welfare, Town Clerk, Treasurer, Collector of Taxes, School Committee and Tree Warden.

Article 2. To see if the Town will vote to readjust the salaries or compensation paid to any or all officers and employees of the Town, whether elected or appointed, or to take any other action thereon.

Article 3. To raise such sums of money as may be necessary to defray the town charges for the ensuing year, and make appropriations for the same.

Article 4. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, to borrow money on and after January 1, 1934, in anticipation of revenue of the financial year beginning January 1, 1934, and issue notes of the Town therefor.

Article 5. To see if the Town will vote to raise and appropriate the sum of three hundred and fifty dollars ($350.00) for Memorial Day, to be expended under the direction of George S. Shepard Post, American Legion, and Elijah A. Morse Camp, Sons of Union Veterans.

Article 6. To see if the Town will vote to raise and appropriate a sufficient sum to cover certain unpaid bills rendered after the close of the fiscal year 1932.

Article 7. To see what action the Town will take in reference to the disposal of garbage in the Town, and raise and appropriate money for the same. (By petition).

Article 8. To see if the Town will vote to authorize the Selectmen to enter into and execute a lease of the Easton Center School Building, so called, with the George F. Schindler Post 2547, Veterans of Foreign Wars, for a period not to exceed (5) five years, under the provisions of Chapter 40, Section 9 of the General Laws and amendments thereto. (By petition).

Article 9. To see if the Town will authorize the Selectmen to sell and convey all the right, title and interest of the Town in the land and school building, known as the Easton Center school property, situated on the southerly side of Depot Street at Easton Center.

Article 10. To see if the Town will authorize the Selectmen to sell and convey all the right, title and interest of the Town in the land and school building, known as the Howard School property, situated on the easterly side of Howard Street in Easton.

Article 11. To see if the Town will vote to tar Rockland Street from the Bay Road to the Mansfield line, and raise and appropriate a sum of money sufficient for that purpose.

(By petition).

Article 12. To see if the Town will amend section three of Article VII of the By-Laws of the Town of Easton by adding at the end of said section the following paragraph: "Only bids so received shall be considered. All contracts shall be awarded to the lowest responsible bidder", or take any action relating thereto. (By petition).

Article 13. To see what action the Town will take to widen the roadway in front of the Ames-Baldwin-Wyoming Shovel Company office. (By petition).

Article 14. To see what action the Town will take in regard to instructing the Board of Selectmen to take the necessary action to have the Eastern Massachusetts Street Railway Company remove all their tracks from the highway ,situated in the said Town of Easton, from the Brockton-Easton line on Belmont Street to the Easton-Raynham line on Turnpike Street, known as the "Short Line" and now abandoned. (By petition).

Article 15. To see if the town will vote to purchase a Pulmotor or Respirator and raise and appropriate the sum of two hundred dollars ($200) for same, and authorize a committee consisting of the Chief of Police, Chief of the Fire Department and three other voters appointed by the Moderator to purchase same. (By petition).

Article 16. To see if the Town will vote to accept as a Town way an extension of Columbus Avenue, as laid out by the Selectmen.

Article 17. To transact any other business that may legally come before said meeting.

And you are directed to notify and warn the inhabitants of the Town of Easton, qualified to vote in elections, in Precinct one to meet at the Town Hall, those residing in Precinct Two to meet at Ames Memorial Hall, and those residing in Precinct Three to meet at the South Easton School house on Monday, the thirteenth day of March next at fifteen minutes before six o'clock in the forenoon, to bring in their vote, all on one ballot, for one member of the Board of Assessors and Board of Health, and two members of the School Committee, for a term of three years, Moderator, three Selectmen, three members of the Board of Public Welfare, Town Clerk, Treasurer, Collector of Taxes, Tree Warden and a Finance Committee of fifteen, for a term of one year.

The polls will be open fifteen minutes before six o'clock A.M. and shall be closed at three o'clock P.M.

You are directed to serve this warrant by posting attested copies thereof at each meeting house and post office in said town, and at the Town Hall, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon to the Town Clerk at the time and place of holding said business meeting, and said Town Clerk is hereby required to make return of this warrant to the Warden or Deputy Warden at the time and place of holding said meeting for the election of officers, and said Warden is hereby required to make return of this warrant to the Town Clerk, together with his return of officers elected, at the close of said meeting.

Given under our hands this twenty-first day of February in the year nineteen hundred and thirty-three.

Leonard H. Porter,
Joseph W. Linehan,
Frank C. Wade,
Selectmen of Easton.

Bristol, ss. Easton, February 27, 1933.

I have this day posted attested copies of this warrant as within directed.

Elisha T. Ellis,
Constable of Easton.

A true copy of the warrant and return thereon.

Harry R. Franklin
Town Clerk.

ANNUAL TOWN MEETING, MARCH 6. 1933

The meeting was called to order at eight o'clock P.M. and the warrant read by the Moderator, Leo M. Harlow.

Article 1. Voted to accept the report of the Board of Selectmen.

Voted to accept the report of the Board of Assessors.

Voted to accept the report of the Board of Public Welfare.

Voted to accept the report of the Town Clerk.

Voted to accept the report of the Town Treasurer.

Voted to accept the report of the Collector of Taxes.

Voted to accept the report of the Board of Health.

A motion was made that the report of the School Committee be accepted with the exception of certain paragraphs relating to the awarding of the school bus contract. An amendment to the motion was adopted that the entire report be accepted. (This was by a hand vote of 313 affirmative to 179 negative). It was then voted to accept the report of the School Committee.

Voted to accept the report of the Tree Warden.

Article 2. Under this article Mr. Elof Edlund moved that the salaries or compensation of town officers and employees from $1000 to $1500 be reduced 10%, from $1500 to $2000 20%, and from $2000 and upwards 30%.

Mr. Thomas A. O'Connor moved to substitute for the pending motion the recommendation of the Finance Committee that a reduction of 10% apply to all elected and appointed officers or employees serving on salary basis but not on per diem basis.

Rev. Samuel Knowles offered an amendment that all persons receiving $1000 and over but under $2000 be reduced 10%, that those receiving $2000 and over but under

$3000 be reduced 20%, and that those receiving $3000 and over be reduced 25%.

Voted to adopt the amendment of Mr. Knowles. It was then voted that the salaries or compensation of all officers and employees of the town, whether elected or appointed, be readjusted accordingly -- that all persons receiving $1000 and over but under $2000 be reduced 10%, that those receiving $2000 and over but under $3000 be reduced 20%, and that those receiving $3000 and over be reduced 25%.

Article 3. Mr. William N. Howard, Chairman of the Finance Committee, presented the recommendations of the Finance Committe, and the following appropriations were voted for the year 1933.

Voted to raise and appropriate the sum of $425.00 for Assessors' Expense.

Voted to raise and appropriate the sum of $225.00 for Election Expense.

Voted to raise and appropriate the sum of $2000.00 for Reserve Fund.

Voted to raise and appropriate the sum of $4000.00 for the Fire Department.

It was then voted that hereafter salaries of the Fire Department be itemized in the town report.

Voted to raise and appropriate the sum of $3000.00 for the Board of Health.

The Town Counsel was instructed to look into the question of merging the Board of Health with the Board of Selectmen.

Voted to raise and appropriate the sum of $2500.00 for Interest on Notes.

Voted to raise and appropriate the sum of $150.00 for Incidentals.

Voted to raise and appropriate the sum of $500.00 for the Moth Department.

The Town Cousel was instructed to inquire into the possibility, under the law, of merging the Moth Department and the Tree Department with the Road Department, for the purpose of reducing expenses.

Voted to raise and appropriate the sum of $7500.00 for Old Age Assistance.

Voted to raise and appropriate the sum of $5550.00 for the Police Department.

Voted to raise and appropriate the sum of $492.00 for Pensions.

Voted to raise and appropriate the sum of $18,000.00 for Public Welfare.

Voted that hereafter Public Welfare cases be listed in the annual report, identified by number, with the amount of aid given in each case.

Voted to raise and appropriate the sum of $20,000.00 for the Road Department.

Voted to raise and appropriate the sum of $100.00 for Registrars of Voters Expense.

Voted to raise and appropriate the sum of $800.00 for Town Offices.

Voted to raise and appropriate the sum of $80,330.34 for the School Department.

Voted to raise and appropriate the sum of $500.00 for Sealer of Weights and Measures.

Voted to raise and appropriate the sum of $225.00 for Registrars of Voters Salaries.

Voted to raise and appropriate the sum of $600.00 for Legal Expense.

Voted to raise and appropriate the sum of $150.00 for Inspector of Animals.

Voted to raise and appropriate the sum of $300.00 for Forest Warden's Salary.

Mr. Howard then moved to raise and appropriate for the Salary of the Assistant to the Town Clerk, Treasurer and Tax Collector, the sum of $1200.00, subject to the salary reduction voted. Motion was then made to amend, and it was voted that the established salary of the Assistant to the Town Clerk, Treasurer and Tax Collector remain at $1200.00. Voted to raise and appropriate the sum of $1200.00 for this salary.

Voted to raise and appropriate the sum of $4300.00 for Soldiers' Relief.

Voted to raise and appropriate the sum of $200.00 for Selectmen's Expense.

Voted to raise and appropriate the sum of $280.00 for State Aid.

Voted to raise and appropriate the sum of $550.00 for Tax Collector's Expense.

Voted to raise and appropriate the sum of $75.00 for Town Accountant's Expense.

Voted to raise and appropriate the sum of $500.00 for Town Accountant's Salary.

Voted to raise and appropriate the sum of $200.00 for Town Clerk's Expense.

Voted to raise and appropriate the sum of $3700.00 for Town Infirmary.

Voted to raise and appropirate the sum of $150.00 for Town Hall.

Voted to raise and appropriate for Town Officers' Salaries, the sum of $5825.00, subject to the salary reduction voted under Article 2.

Voted to raise and appropriate the sum of $600.00 for Town Physician.

Voted to raise and appropriate the sum of $250.00 for Town Treasurer's Expense.

Voted to raise and appropriate the sum of $1500.00 for Tree Department.

Voted to raise and appropriate the sum of $403.80 for Town Reports.

Voted to raise and appropriate the sum of $2715.49 for Unpaid Bills of the year 1932.

Article 4. Voted that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow from time to time on and after January 1, 1934, in anticipation of revenue of the financial year 1934, and to issue a note or notes of the town therefor, payable within one year, any debt or debts incurred under authority of this vote to be expressly made payable from revenue of the financial year 1934.

Article 5. Voted to raise and appropriate the sum of $350.00 for Memorial Day, to be expended under the direction of Elijah A. Morse Camp, Sons of Union Veterans, and George S. Shepard Post No. 7, American Legion.

Article 6. Action taken under Article 3.

Article 7. Voted to lay this article upon the table.

Article 8. Voted to lay this article upon the table.

Article 9. Voted to authorize the Selectmen to sell and convey all right, title and interest of the town in the land and school building, known as the Easton Center school property, situated on the southerly side of Depot Street, at Easton Center, to George F. Schindler Post No. 2547, Veterans of Foreign Wars, for a sum not to exceed ten dollars.

Article 10. Voted to authorize the Selectmen to sell and convey all the right, title and interest of the town in the land and school building, known as the Howard School property, situated on the easterly side of Howard Street in Easton.

Article 11. Article defeated.

Article 12. Voted to amend Section 3 of Article VII of the By-Laws of the Town of Easton, by adding at the end of said section the following paragraph: "Only bids so received shall be considered. All contracts shall be awarded to the lowest responsible bidder."

Article 13. Voted to lay the article upon the table.

Article 14. Voted that the Board of Selectmen be instructed to take the necessary action to have the Eastern Massachusetts Street Railway Company remove all their tracks from the highway, situated in the said Town of Easton, from the Brockton-Easton line on Belmont Street, to the Easton-Raynham line on Turnpike Street, known as the "Short Line" and now abandoned, without cost to the Town.

Article 15. Voted to purchase a Pulmotor or Respirator and other necessary equipment such as a stretcher, etc., and raise and appropriate the sum of two hundred dollars for the same, and to authorize a committee consisting of the Chief of Police, Chief of the Fire Department, and three other voters appointed by the Moderator to purchase same.

Article 16. Voted to accept as a town way an extension of Columbus Avenue, as laid out by the Selectmen.

Article 17. Voted to appoint from the floor two citizens in the building trade to act as inspectors and with the cooperation of the School Committee to inspect the new school building in North Easton in respect to faulty construction, and report to the next annual town meeting.

Henry Holmes and John C. Johnson were appointed.

Voted to accept as progressive the report of the joint committee of the Town of Easton and the North Easton Village District in relation to Fire Department matters.

Voted that a committee of three be appointed by the Chair to bring in resolutions at the next annual meeting on the death of the late Frank P. Keith.

Voted to adjourn.

A true record. Attest: HARRY R. FRANKLIN,
Town Clerk.

The following committees were appointed:

Committee on Purchase of Pulmotor: Chief of Police, Chief of Fire Department, Dr. Robert B. Porter, Peter J. Travers, Sigfrid T. Haglund.

Committee to draw up resolutions on the death of Frank P. Keith: Daniel F. Buckley, Frank C. Wade, Henry F. Frost.

REPORT OF JOINT COMMITTEE OF THE TOWN OF EASTON AND THE NORTH EASTON VILLAGE DISTRICT IN RELATION TO FIRE DEPARTMENT MATTERS

Under Article 2 of the Annual Town Meeting of 1930 it was voted that the Selectmen appoint a committee of eight to consist of two members from the North Easton District, two from South Easton, two from Unionville, and two from Easton Furnace, to work in conjunction with a similar committee to be appointed at the annual meeting in April of the North Easton Village District; the joint committee to consider the question of the purchase by the Town of the fire apparatus and equipment of the North Easton Village District, the rental or purchase of the fire station, to consider the question of salaries of firemen, and to report at the next town meeting.

REPORT

At a special town meeting held in 1931 and the regular meeting held in 1932, the Town carried out the above propositions in respect to town purchase and control of the fire apparatus and equipment and in respect to salaries of firemen.

The remaining issue relates to the purchase by the Town of the Fire station at North Easton and presumably its fire alarm system.

The committee is of the opinion that this is not the time to appropriate money for this purpose.

When appropriations for this purpose can be made, it is the opinion of a majority of your committee that the appropriation should be sufficient to cover the purchase of the North Easton Village District building and alarm system and to furnish a fire station and alarm system for the South Easton District.

As an alternative the majority of the committee suggests that the South Easton District erect its own station and alarm system and that both districts then make over their properties to the town without money consideration.

ANNUAL TOWN ELECTION, MARCH 13, 1933

In accordance with the warrant, the voters of the town met at their respective polling places on Monday, March 13, 1933.

Precinct One -- Alfred W. Heath, Warden; Isabella Randall, Deputy Warden; Clifton C. Ripley, Clerk; Jennie M. Goss, Deputy Clerk; Oreste G. Favor, Lillian Talbot, Gertrude C. Heath, Emily L. Wry, Tellers.

Precinct Two -- John M. Smith, Warden; Gustaf R. Nelson, Deputy Warden; Edgar W. Baldwin, Clerk; Mildred Healey, Deputy Clerk; Paul F. Whitten, Emma L. Keith, Esther V. Lawson, Henry E. McEntee, William J. Murphy, Annie M. Reardon, Francis J. Callahan, Jeremiah J. Coughlin, Tellers.

Precinct Three -- Henry F. Frost, Warden; Nettie A. Ewell, Deputy Warden; Kathryn C. Howard, Clerk; Myrtle L. Prior, Deputy Clerk; Jesse C. Wilson, Calvin A. Howes, Jessie G. Nickerson, Esther M. Fenwick, Constance A. Gifford, Tellers.

The polls were opened at 5.45 A.M. and closed at 3 P.M.

The number of ballots cast in Precinct One was two hundred eighty-five; in Precinct Two, fourteen hundred thirty-five; in Precinct Three, four hundred forty-eight; total vote, twenty-one hundred sixty-eight.

The result of the election was as follows:

SELECTMEN (Three)

NOTICE

The attention of parents is called to the law relating to the registering of births. The present requirement is as follows:

Chapter 29, Sec. 6, of the Revised Laws. Parents within forty days after the birth of a child . . . shall cause notice thereof to be given to the clerk of the town or city in which such child is born.

Sec. 8. A parent . . . who neglects to do so for ten days after the time limited therefor . . . shall forfeit not more than five dollars for each offense.

Attention of Physicians and Midwives is called to Chap. 280, Sec. 1, Acts of 1912: Sec. 1. Physicians and midwives shall, within forty-eight hours after the birth of every child in cases of which they are in charge, mail or deliver to the clerk or registrar of the city or town in which the birth occurred a notice stating the date and place of the birth, giving the street number, if any, the number of the ward in a city and the family name. Failure to mail or deliver the said notice shall be punishable by a fine not exceeding twenty-five dollars for each offense.

In accordance with the provisions of the law, the Town Clerk is prepared to furnish to parents, physicians, and midwives applying therefor, blanks for return of births as required.

HARRY R. FRANKLIN,
Town Clerk of Easton.

DOGS

For the benefit of the owners and keepers of dogs the following extract of the General Laws is submitted:

General Laws, Chapter 140

Section 137. The owner or keeper of a dog which is three months old or over shall annually, on or before March thirty-first, cause it to be registered, numbered, described and licensed for one year from the first day of April following.

The owner or keeper of a license dog shall cause it to wear around its neck a collar distinctly marked with its OWNER'S NAME and its REGISTERED NUMBER.

Section 138. The owner or keeper of a dog may at any time have it licensed until the first day of April following, and a person who becomes the owner or keeper of a dog after April first, which is not duly licensed, and the owner or keeper of a dog which becomes three months old after March thirty-first in any year, shall, when it is three months old, cause it to be registered, numbered, described, licensed and collared as required by the preceding section.

(Example under Section 138 above.) If a dog is born on August 1, 1933, he becomes three months old on November 1, 1933, and should be licensed on that date for the period November 1, 1933, to April 1, 1934 (when it becomes necessary to re-license him for the year April 1, 1934, to April 1, 1935.)

DOG LICENSES

Issued December 1, 1932 to December 1, 1933.

1 Operating of automobile impeded
5 Operating automobile without a license
1 Operating automobile not registered
2 Operating automobile with plates not assigned to that vehicle
2 Possesion of sawed-off shotgun
1 Malicious injury to property

Yours respectfully,

E. T. ELLIS,
Chief of Police.

Report of Dog Officer

To the Selectmen of Easton.
Joseph W. Linehan, Chairman.

Gentlemen:

I hereby submit my report as Dog Officer for the year 1933.

During the year I received a list of one hundred and sixty unpaid dog licenses for collection. A total of three hundred and sixty dollars was collected and paid to the Town Clerk.

Five dogs were killed and buried, three stray dogs returned to their owners and six restraint notices were served.

In the performance of my duties I travelled a total of four hundred and fifty miles.

Respectfully submitted,

VALENTINE J. KALIUM,
Dog Officer, 1933.

Report of Board of Health

To the Citizens of the Town of Easton:

The number of diseases dangerous to the public health reported in 1933 was ninety-six, as follows:

Chicken Pox, twenty-eight; Scarlet Fever, twenty-three; Whooping Cough, twelve; Mumps, eleven; Measles, ten; Dog Bite, four; Pulmonary Tuberculosis, three; Glandular Tuberculosis, one; Tuberculosis of Bone, one; Lobar Pneumonia, one; Septic Sore Throat, one; Infection of Eyes of Infant, one.

The deaths from reportable diseases were three, -- two from Pulmonary Tuberculosis and one from Lobar Pneumonia.

The number of deaths of residents of Easton from all causes was sixty-eight, a death rate of 12.8 per thousand, based on a population of 5298.

The number of births was eighty-seven, a birth rate of 16.4 per thousand.

During the year we had eleven patients at the Bristol County Tuberculosis Hospital and one patient at the Lakeville Sanatorium. The total expense for Tuberculosis patients during the year was $2571.15. The sum of $1301.75 was received from the Commonwealth as a subsidy for Tuberculosis payments and for care of patient not having a settlement in Easton, so that the net cost to the Town was $1269.40. The town also received as reimbursement for payment made by the board for Scarlet Fever patients the sum of $79.00. As these receipts go into the general fund of the town and are not credited to the Board of Health, we did not have sufficient funds to pay the full amount of the 1933 charges. We have unpaid bills for 1933 amounting to $880.98.

We had twenty-three cases of Scarlet Fever during the year. These cases were distributed as follows:

South Easton, nine; Unionville, nine; North Easton, three; Bay Road, two. Of these cases four required hospitalization. These patients were admitted to the hospital in October and November of 1933. One was discharged January 20, 1934, and three are still in the hospital at this date, February 14, 1934. The amount of the charges for these patients up to February 13, 1934, was $1071.00. These hospital bills will have to be paid out of the 1934 appropriation.

The Diptheria immunization was continued on the school children this year, and we are glad to find that no case of Diptheria was reported in town during the year.

We enlarged the area of the dump on Baldwin Street this year, but it is getting filled up very fast and something will have to be done to enlarge this dumping area very soon.

Licenses issued by the board in effect in 1933 were as follows:

Milk licenses and permits, one hundred seventeen; license to pasteurize milk, one; Denatured Alcohol, nine; Garbage Collector, three; Permits to keep Swine, nine; Manicuring and Massage, six; manufacture of non-alcoholic beverages, one; manufacture of Ice Cream, one. There were fifty-nine burial permits issued.

We append the reports of the Milk Inspector and Inspector of Slaughtering.

Respectfully submitted,

DAVID J. O'CONNELL,
FRANK E. TILDEN,
CORA M. HENNIGAR,
Board of Health of Easton.

Report of Inspector of Milk

Mr. D. J. O'Connell, Chairman, Board of Health.
Dear Sir:

The following is the report of the Milk Inspector for the year 1933:

Total number of samples tested for butterfat	139
Total number of samples tested for total solids	139
Total number of samples tested for solids not fat	139
Total number of samples plated for bacteria conut	139
Total number of samples found below legal standard in butterfat	4
Total number of samples below standard in total solids	2
Highest average butterfat content for the year	4.50
Lowest average butterfat content for the year	3.66
Highest average total solids for the year	13.84
Lowest average total solids for the year	12.78
Highest average bacteria count for the year	69,000
Lowest average bacteria count for the year	6,800
Number of vehicle licenses issued	19
Number of license issued to stores, restaurants, and roadside stands for the sale of milk	38

During the past year the Massachusetts State Milk Regulation Board drafted a new uniform score card covering herd, dairy barn, milk room, and utensils. The dairies of Easton have been inspected and reports forwarded to the Milk Regulation Board, to the end that the board may issue certificates of registration to these dairies.

With few exceptions, the milk produced in Easton has been of high quality, and notable improvement shown over the preceding year in number of samples found below legal standard in butterfat and total solids, as well as a greatly reduced highest average bacteria count.

Respectfully submitted,

LEO J. FITZPATRICK,
Inspector of Milk.

Report of Inspector of Slaughtering

To the Board of Health of Easton:

I herewith submit my report ending December 31, 1933.

During the year I have inspected two carcasses of Veal and five carcasses of Swine.

Respectfully submitted,

J. CLINTON GOWARD,
Inspector of Slaughtering.

Report of Inspector of Animals

I herewith submit my report for the year ending December 31, 1933.

During the year I have inspected 553 cows, 125 young stock and 39 bulls.

I have also inspected the buildings in which the above cattle were housed.

During the year a great advancement has been made in giving the animals the tuberculin test and over 85% are under State and Federal supervision.

J. CLINTON GOWARD,
Inspector of Animals.

Report of Superintendent of Moth Work

To the Selectmen of the Town of Easton:

I submit the following report of the work of the Moth Department for the year 1933.

Early in 1933, a general scout and creosote of egg clusters on street trees and in the residential section was completed. Then, at the March meeting, the appropriation was cut to $500.00. Nearly all of this amount had already been expended in scout work, so that it was necesary to stop the work, and the remainder of the appropriation was used in spraying one large roadside colony and in answering two calls for spraying in the North Easton section.

No scout work has been done during the late fall or winter. The result of the curtailment of this work is very apparent in the number of egg clusters seen upon the street trees and on private trees in the residential sections.

In the woodland areas, the work of the caterpillars was very noticeable, with several hundred acres defoliated, or partially so.

Unless the creosote and spray work in the residential sections and on street trees is carried on, many of the Oaks will be defoliated, as in the past, and our street trees and residential sections become badly infested.

The large woodland colonies near the Mansfield and Sharon line have spread the past year, now becoming a menace to the surrounding properties.

The work as taken up by the Federal Government, with a scout for Brown Tail Moth webs, none having been found at this writing, and the State project on Gypsy

Moth woodland creosote work, under the C.W.A., will aid the town only as an assistance measure, and is work that the towns could not do under their usual appropriations.

The conditions in towns surrounding us have not improved, except in a few of the Cape towns were large appropriations were made for the work .

No Japanese Beetle has been found in Easton as yet, Tent Caterpillars few, but Fall Web Worm on the increase. These webs should be cut and burned when the caterpillar is at its height.

The department truck is still in fair condition, although showing some results of the snow plow work. The sprayer, in use for eighteen years, is badly worn, and may require replacement at any time.

I believe that a reasonable amount should be appropriated for this work, otherwise the town will become badly infested and conditions similar to those on the Cape section will be had. It is also possible to use men from the Welfare Department on this work, and I recommend that the town raise and appropriate for this department the sum required by the State, $2335.70, and that $1000.00 of this amount be used in giving work to the unemployed.

Appropriation for 1933	$500.00
Expended	499.43
	$ .57

For a detailed account of expenditures, see Town Accountant's report.

Respectfully submitted,

ROSCOE W. MELENDY,
Moth Superintendent.

Report of Tree Warden

To the citizens of the Town of Easton:

The following is a report of the Tree Department for the year 1933.

While the outbreak of Elm Leaf Beetle continued in this section of New England, our elms in Easton, with the exception of a few private trees which were not srayed, came through the summer, showing very little effect of the beetle. The town elms, with very few exceptions, were sprayed, and should be sprayed in 1934.

The so called "Dutch Elm Disease" found in Pennsylvania and New Jersey, has not as yet been located farther east. The Federal Government has scouts covering the eastern area, and is also at work on the disease, as is the State Department. The Arnold Arboretum also has a man devoting full time to the investigation.

The tree work this year, with the exception of spraying the elms, was confined entirely to removing dead wood and limbs necessary for traffic. No trees were planted and but fourteen were removed. These were trees that were dead and in so dangerous a condition that it was necessary to remove them. Four trees were bolted, but no cavity work was done.

Four trees posted in 1932 for removal are still standing, and while I believe that safety requires their removal, lack of funds prevented this. We were also unable to cover several streets in town for dead wood trimming, through lack of funds.

Walnut Gall, a disease new to this section, appeared in the Walnuts this year with serious results to the trees. Also the Imported Willow Beetle was very destructive on the willows in several of the properties in the North Easton section. This beetle is very easily controlled by spraying, which should be done early, and on the under side of the leaves.

The Edison Electric Illuminating Company was allowed trimming for its primary lines throughout the town, as also the local Telephone Company for cable, and the Postal Telegraph for its line, this work being done at no expense to the town.

It was necessary this year to use funds from the tree appropriation to spray the elms, this work having formerly been done in conjunction with the Gypsy Moth spray program, and it was found that the sum appropriated was then not sufficient to cover the town on general trimming. There is much other work that should be done, bolting cavity work and the removal of several trees that are becoming dangerous.

If you desire that the trees should be taken care of in a manner to maintain their beauty and safety throughout the town, it will be necessary to appropriate a larger sum for the work, and I would recommend that the sum of $2500.00 be raised and appropriated for the year 1934.

Appropriation for year 1933	$1500.00
Expended	1496.39
Unexpended balance	3.61

For a detailed acconut of expenses, see Town Accountant's report.

Respectfully submitted,

ROSCOE W. MELENDY,
Tree Warden.

Report of the Board of Registrars of Voters for 1933

Organization

Sigfrid V. Ledin, Chairman
Luther E. Swift
* Frank A. White
Harry R. Franklin, Clerk

Meeting for registration prior to Town meeting were held

Feb. 16th at the Infirmary, Prec. One, eight names added.
Feb. 18th at the So. Easton Schoolhouse, Prec. Three, nine names added.
Feb. 21st at the Town Clerk's Office, Prec. Two, fifty-three names added.

A new check list was prepared for use at Town Election showing the following registration as of February 21, 1933:

	Men	Women	Total
Precint One	204	178	382
Precinct Two	914	886	1800
Precinct Three	307	277	584
	1425	1341	2766

Names checked for admittance to Annual Town Meeting, March 6, 1933.

	Men	Women	Total
Precinct One	30	60	90
Precinct Two	148	237	385
Precinct Three	31	68	99
	209	365	574

A meeting was held at the Town Clerk's Office on March 18th at which names were certified on nomination papers for candidates for offices of the North Easton Village District; 437 names were checked.

As required by Statute one session of the Registrars was held at the Town Clerk's office on June 9th prior to the Special State Election of June 13th; eight names were recorded.

The full board was present at this meeting from 12M to 10 P.M. and Sigfrid V. Ledin was chosen Chairman.

On November 25th a meeting was held at the Town Clerk's office for the certification of names on papers for

Initiative Petition for Biennial Sessions of the General Court." Five hundred and eighty names were checked on twenty-four separate papers.

FRANK A. WHITE

With deep regret this Board records the sudden death on December 22, 1933, of Frank A. White, a member for several years.

Born in Easton, June 28, 1863, his whole life was spent here.

A kindly, jovial man, well known and liked by all, his presence will be missed at our future meetings.

SIGFRID V. LEDIN,
LUTHER E. SWIFT,
HARRY R. FRANKLIN, Clerk.

Respectfully submitted,

P. J. READDY,
Sealer of Weights and Measures.

Report of Town Counsel

Board of Selectmen, Easton, Mass.

Dear Sirs:

At the Town Meeting of March, 1933, the Town Counsel was instructed:

1. To look into the question of merging the Board of Health with the Board of Selectmen.

2. To inquire into the possibility, under the law, of merging the Moth Department and the Tree Department with the Road Department, for the purpose of reducing expenses.

The Town is required under General Laws, Chap. 41, Sec. 1, at its annual meeting, to choose by ballot a Tree Warden for the term of one year and three members of the Board of Health for the term of three years, if the Town provides for such a board; otherwise the Selectmen shall act as a Board of Health. For many years our officers have been so elected.

A change in the method of electing a Board of Health and a Tree Warden can be made under General Laws, Chap. 41, Sec. 21, which in substance provides that ten per cent of the reigstered voters may file a petition with the Selectemen thirty days or more before the annual meeting, asking that the Selectmen act as a Board of Health, and also that a Tree Warden be thereafter appointed by the Selectmen. The Selectmen thereupon direct the Town Clerk to cause the question whether the petition shall be granted to be printed upon the official ballot used for the election of town officers at the next annual meeting, in substantially the following form: Shall the Town vote to have its Selectmen act as a Board of Health? and Shall the Town vote to have its Selectmen appoint a Tree Warden?

If the vote is in the affirmative, it shall be valid and binding. Upon the election and qualification of the Selectmen, the term of office of such existing board or officer shall be terminated.

The suggestion is that economy will result if the duties of the Board of Health are merged with those of the Selectmen, who handle the general business affairs of the Town and its Highway Department, and who are also Assessors and Public Welfare officials. The only apparent saving is the small salary now paid to the Health Board. The result would be the loss of a Board trained by long experience in a technical and important department, and an overloading of the Selectmen.

Merging the Tree Department with the Road Department suggests that the appointment of the Tree Warden is to be from among the Selectmen or the road employees. It does not follow that capable road builders are good tree men or vice versa, and it is doubtful if Road Department employees could work interchangeably at either kind of work . The Superintendent of the Moth Department, who is now appointed by the Selectmen under General Laws, Chap. 132, Sec. 13, requires the approval of the State Forester, and would mean a man with some specialized knowledge would have to be appointed. I have been unable to learn of any advantage from a joint storage of equipment and machinery.

In my opinion, the departments as at present constituted are probably as economically and more efficiently maintained than they would be under the proposed mergers.

Respectfully submitted,

JAMES F. BURKE,
Town Counsel.

SCHEDULE OF "NO SCHOOL" SIGNALS

The sirens of both the North Easton and the South Easton fire stations will be used to sound the signal. The "no-school" signal on the North Easton station will be two blasts sounded three times in succession (2-2-2). The "no-school" signal on the South Easton station will be one long blast sounded either at 7:15 or 8:00 a.m. Signals will have the following meanings:

7:15 a.m.—No school all day at the Junior-Senior High School.

8:00 a.m.—No school all day in the schools outside North Easton, and no morning session at the North Easton Grammar School.

12:45 p.m.—No school for the afternoon session at the North Easton Grammar School.

Annual Report of the School Committee

To the Citizens of Easton:

The School Committee herewith submits the one hundred and sixth annual report.

The year nineteen hundred thirty-three has been another trying year for the public schools. The funds available for the support of the schools of Easton for 1933 were about ten thousand dollars less than the amount available the year previous.

A reduction of twenty thousand dollars has been made in the school budget in two years, about a 20 per cent reduction. Approximately fifteen thousand dollars of this reduction came from salary items; our 1932 report explained in some detail the other reductions in expenditures.

During the year 1933 several replacements of teachers were made and in each case the salary paid for the position was decreased. During the present school year there has been a net increase in total teaching time of one half a full time position. Our teaching staff is smaller than it should be; any curtailment of present school activities will be a great injustice to our school children.

The estimated income from the Oliver Ames school fund for 1934 is less than was received last year. We are asking for a town appropriation of $78,900.00. These two amounts will enable us to continue our present organization. This is less than the town appropriated for schools last year. This reduction is largely made possible from the fact that no major repairs to the school buildings will be necessary in 1934.

The following figures show the amounts expended in the last three years, and our estimate for 1934.

Expended in 1931 —	$108,121.01
Expended in 1932 —	98,034.03
Expended in 1933 —	88,204.28
Estimated for 1934 —	85,900.00 +15000+800.

85900
15000
800
101700
Oliver Ames 8000
10970
For 1934

Figures from the annual report of the State Department of Education for the year 1933 show that for the school year ending June 30, 1933 the total amount expended for the support of public schools, from all sources, was $1.44 less per pupil in Easton that the average per pupil in all of the other towns in the state. This was true after over eleven thousand dollars from the two Ames funds had been added to the town appropriation.

Our schools are in danger of losing the good reputation that they have had for many years. It is not conceivable that the citizens of Easton will allow this condition long to continue.

All of our school buildings are now in very good repair. In 1933 $2,600.00 was spent on repairs; nearly one half of this amount was spent on the South Easton building. The entire roof was shingled, the outside painted two coats, the class rooms and basement painted, and a new grate put into the heater. Seven hundred dollars was spent on the Junior-Senior High School building, mostly work inside. The Poquanticut School building was painted outside, and some work was done inside the Union School building. Various small repairs were made in all of the buildings. The Civil Works Administration has done much painting on the school buildings with very little expense to the school department.

About one quarter of our pupils are being transported to and from school under contracts signed in December, 1932 by Jeremiah J. Reardon and Arvid C. Nelson. Mrs. B. N. Cogswell carries some primary children to the South Easton School. Two routes were lengthened in 1933, so that the total mileage was increased about five miles. We are now paying $39.40 each school day for transportation.

Miss Jessie A. Dix resigned as principal of the North Easton Grammar School last October. We were obliged to require her to teach part time. She felt that she could not do the teaching and do justice to the scholars and to herself and that she preferred to resign. Miss Johanna G. McFadden, who had taught several years in the building, was appointed principal, with part time teaching.

Three faithful and efficient teachers retired at the close of the school year in June. They were:

Miss Henrietta Winchester, French and English teacher in the High School. She had taught here for forty consecutive years.

Mrs. Sadie L. Hurst, fifth and sixth grade teacher at the South Easton School. She had taught in our schools for twenty-four years and was a school committee member from March, 1915 to August, 1920.

Mrs. Mildred H. Shurtleff, geography and mathematics teacher in the Junior-Senior High School. She had taught twelve years.

Mrs. Mary L. Howard retired from the School Board last March, after serving six years. She was chairman of the committee for three years. She took a great interest in schools and did much work for them.

Our school organization lost one by death during the year. Mr. John J. Stanton passed away last July. He had been a faithful and hard working janitor of the North Easton Grammar School building since February, 1930.

THE 1934 BUDGET

We are asking for an appropriation for 1934 of $78,900.00. Details of our proposed budget are shown below.

	Expended 1933		Needed 1934	
General		1,650.19		1,624.00
School Committee				
Traveling Expense	4.50		15.00	
Office Expense	209.69		190.00	
Superintendent's Expenses				
Traveling Expense	150.00		150.00	
Supervisor of Attendance	150.00		125.00	
Clerk	1,136.00		1,144.00	
Salaries		55,908.83		55,859.00
Textbooks		1,315.27		1,200.00
Supplies		1,939.69		1,800.00
Operating Expenses		11,362.86		11,620.00
Janitors' Wages	6,083.05		6,185.00	
Fuel	3,368.02		3,500.00	
Janitors' Supplies	623.02		600.00	
Water	251.91		240.00	

Electricity	923.93		975.00	
Misc. School Plant	112.93		120.00	
Maintenance		3,001.41		1,456.00
Repairs	2,610.83		1,200.00	
Furn. & Furn.	390.58		256.00	
Health		2,252.94		2,230.00
Salary Physician	540.00		540.00	
Salary Nurse	1,350.00		1,350.00	
Transportation	240.00		240.00	
Supplies	44.44		60.00	
Miscellaneous	78.50		40.00	
Transportation		7,067.40		7,171.00
Tuition		609.10		600.00
Sundries		2,567.96		2,140.00
General	109.21		100.00	
Graduation	77.38		90.00	
Insurance	2,381.37		1,950.00	
Outlay		395.28		200.00
Perm. Improve.	185.76		100.00	
New Equipment	209.52		100.00	
		$88,070.93		$85,900.00

BUDGET SUMMARY

A. 1933

Appropriation, Town Meeting, March, 1933		$80,330.34
Receipts, Oliver Ames Fund, 1933	$15,757.38	
Less amount applied on Bond Account	8,000.00	
Available for school expenses		7,757.38
Total departmental receipts		$88,087.72
Total expenditures		88,070.93
		$ 16.79

B. 1934

Town appropriation requested	$78,900.00
Estimated from Oliver Ames Fund after setting aside $8,000.00 for Bond Account	7,000.00
Total	$85,900.00

C. In 1933 the following sums were received by the town on account of its schools and went into the general fund of the town treasury:

From the state, on account of teachers' salaries	$11,800.00
From the state, as tuition and transportation of state wards	3,273.72
From the City of Boston, as tuition of Boston city wards	246.76
From the state, as reimbursement in part for tuition paid trade schools	301.39
Supplies sold, telephone toll calls collected, etc.	80.38
Total	$15,702.25

If the above amount could be applied to the 1934 budget, the cost to the town by direct taxes for the year would be $63,197.75 ($78,900.00 - $15,702.25 equals $63,197.75).

Respectfully submitted,

HEMAN HOWARD, Chairman,
ARTHUR F. ANDERSON,
EDGAR A. CRAIG,
EDWARD J. McNAMARA,
ROGER A. McNAMARA.

Report of the Superintendent of Schools

To the School Committee of Easton:

The report of the Superintendent of Schools for the year ending December 31, 1933, is submitted herewith. This report is the forty-eighth in the series of annual reports from this office, and is the ninth prepared by the present writer. It will attempt to present a brief summary of the achievements of the schools in 1933 and will discuss some of the problems which have been met and some of the needs which face us.

THE SCHOOLS AND THE DEPRESSION

From shortly after the close of the World War until the year 1932, public education in Easton moved ahead. Through successive steps the pay of teachers was raised. Then music, physical education, and art supervisors, in that order, were added to the teaching staff. Teachers began to remain longer in their Easton positions, and the town school system ceased to be, to a considerable extent, a training field for the schools of larger cities and towns. An extensive building program gave us much needed facilities and eliminated all but one of our out-dated buildings. The Frothingham Memorial Park solved most admirably the playground and athletic field needs of our schools in the North Easton section. Then the full force of the depression struck our local schools. Four and a half teaching positions were eliminated, including supervisors of music, art and physical education in the grade schools. Class sizes were increased. Principals of the larger units were required to do more teaching. All salaries were reduced at least ten per cent, and several were reduced more than ten per cent. Funds for needed textbooks and supplies were reduced about forty per cent. Other savings were practiced wherever possible. Building repairs for a time were neglected.

We are now entering the third calendar year of curtailed support for public education in Easton. It is now possible to look back and judge the immediate effect of this curtailment on the pupils. At the Junior-Senior High School larger clases, in general, less individual attention and help given pupils by teachers, and less supervisory work by principals, are the main losses. In the grade schools, much larger classes than formerly are evident. The loss of trained supervision in music, art, and physical education is conspicuous. These are the main loses. They may appear to the casual reader to be relatively unimportant. Possibly we need not worry about the increases in class size. The heavier teaching loads carried by teachers and principals inevitably reduce the opportunity for individual work with pupils and for supervision of their academic and other school activities. Few laymen give serions thought to the posibilities of music and art in developing personality traits in children and in fitting them for rich and full living. The possibilities of physical education, although more obvious, are equally unappreciated. There can be no question but that these subjects in the grades have suffered since our special supervisors were withdrawn. I hope that with the return of better times a music supervisor at least will be provided to work with our grade pupils and teachers.

The teaching staff has borne in large part the financial burden of the reduced budget. Teachers have appreciated the need for reasonable retrenchment. There has been no let-down in morale. But teachers, like others, are looking forward to the time when normal incomes will be restored. While decreased pay and increased work have not affected morale, there is a group of teachers who, with complete justification, are expressing dissatisfaction. This is the younger group of teachers who were at or near the bottom of the salary schedule two years ago and who, with the elimination of annual salary increments up to a maximum, have continued to work on a beginner's salary, while the older teachers are quite properly enjoying the benefits of these annual increments, less the ten per cent reduction. In my opinion, there can be no justice in depriving these younger teachers, including some of our most efficient ones, of the benefits of the annual salary increments in the future.

THE BRIGHT SPOTS OF 1933

The year 1932 was the year of readjustment in the town's schools. The year 1933, free from the distractions of readjustment, found the schools again in a position to make progress. The paragraphs which follow briefly summarize achievements along various line.

Academic Achievement. In the absence of any extensive use of standardized tests in 1933, objective measures of achievement in scholarship standards are largely lacking. We do know, from the results of the Gates Reading Tests, given last May, that Easton children scored decidedly above the standards for their respective grades, for grades 1 to 6 inclusive. The Cross English Test was given in June to grades 9 to 12 inclusive, with results giving median scores for each grade well above the standard. Our high school classes in physics, chemistry, and second year algebra, using the Columbia Research Bureau Physics Test, the Powers General Chemistry Test, and the Columbia Research Bureau Algebra Test respectively, gave median scores above standard for their grades. Only in Trigonometry (using the American Council Trigonometry Test) did any of our groups fall (in median score) below the standards given in the tests, and this very small group was only slightly below standard. In the report of the principal of the Oliver Ames High School, which is included in full with this report, reference is made to outstanding achievement in college of some of our high school graduates.

Textbooks. In spite of a greatly reduced textbook budget in 1932 and 1933, we have managed to keep our textbook equipment up-to-date and in fairly good condition. Except in music textbooks for grades 5 and 6, there is no textbook shortage. Except in penmanship and in some supplementary titles in other fields, all of our textbook equipment in the elementary schools has been purchased since 1927, and with the single exception noted above I believe that all our basal textbooks in the first six grades bear 1927, or later, copyrights. During 1933, new textbooks to replace obsolete ones were purchased for two divisions of grade 7 mathematics, two divisions of grade 8 mathematics, English books and the accompanying workbooks for grades 3 to 6 inclusive, geography texts for one division of grade 8, history texts for one division of grade 7, French texts for grade 10, new texts in the occupations course in grade 9, and new texts in economics, for both divisions of Problems of Democracy, grade 12.

Improvements to Buildings and Grounds. Many minor improvements to buildings and grounds were made during 1933. A mere listing of the principal improvements will be sufficient.

(1) New power planer and jointer purchased for the high school shop, paid for in large part with money from Oakes Ames fund.

(2) Driveway and parking area at the west and south sides of the high school building surfaced, in cooperation with the Street Department.

(3) Sidewalk and curbing built at the west edge of high school grounds, in cooperation with the Street Department.

(4) The west portion of high school lawn graded to the top of curb, and shrubbery set on the west and north portions of the lawn at this building.

(5) Playground slide installed on grounds of Eastondale school. Money for this slide was earned by pupils and teachers.

(6) Three swings, four teeter-boards and a giant stride set up on the Eastondale School playgrounds, the gift of the Eastondale Community Club.

(7) The South Easton School shingled, the exterior painted and the three classrooms redecorated, during the summer. With CWA workmen and materials the entire basement, toilets, and end-halls have been painted.

(8) The Poquanticut School exterior painted.

(9) Much work done by CWA workers in painting basement at North Easton Grammar School, cafeteria and basement at the High School, exterior of the new addition to the North Easton Grammar School, etc. Plans have been made to have the exterior of the addition to the High School, and the exterior of the Eastondale School, as well as some other painting work, done by CWA men.

(10) New grates for the boiler at the South Easton School installed.

(11) Three new electric clocks for the South Easton School installed, the clocks having been purchased with funds raised by the teachers and pupils.

(12) The library room at the North Easton Grammar

School, now officially called the "Mary A. Stone Library", remodelled and refinished.

(13) A spring board and a beat board made in the school shop for the Junior-Senior High School gymnasium.

(14) Lunch tables and benches made in the school shop for the Poquanticut and Union Schools.

(15) Much minor repair work to school furniture and building interiors accomplished during the summer vacation.

(16) A State flag given the high school by the Class of 1933.

(17) Electric lights in the Poquanticut School connected.

Health Activites. A more detailed statement of the work of the schools along these lines will be found in the report of the school nurse, which is included with this report. The following activities have been conducted:

(1) Dental clinic established in January, with the help of the Easton Lions Club and Dr. Harold Smith.

(2) Diptheria immunization clinics held in March and November, in cooperation with the local Board of Health.

(3) The annual tuberculosis clinic conducted in cooperation with the State Department of Public Health.

(4) Annual summer round-up held in May, the work being done by the school physician and school nurse.

(5) Annual mental clinic conducted in cooperation with a staff from the Taunton State Hospital, in October.

(6) Milk lunches continued, and considerable free milk furnished underweight needy children. The help of Mr. Arthur H. Merritt of Boston, who gave his lecture on "The Call of the North" at a low rate, is

acknowledged, in raising funds for milk. The milk fund was sponsored by the Easton Teachers' Club.

(7) The annual physical examination of all pupils conducted by the school nurse and school physician in September and October. This examination includes a stripped-to-the-waist examination of all beginners not in the summer round-up, all ten-year-olds, all freshmen, and all members of athletic squads.

(8) Home visiting and class talks by the school nurse.

(9) Numerous daily personal conferences held by the school nurse with pupils asking for advice or first aid, some of whom were referred to the school physician.

(10) Provision made for the furnishing of glasses to those children who need them and whose parents are financially unable to provide them, the work being financed by the Easton Lions Club.

Community Cooperation. Several organizations in town have given much appreciated assistance to the schools. The Easton Lions Club has made possible the excellent dental clinic which we now have, and has made possible the providing of glasses to every child in need of them who would not otherwise have them. The Eastondale Community Club has continued to show its interest in the Eastondale School by contributing swings, teeter boards and a giant stride, all of the best construction, to the school playground equipment. The Laurel Club, the Outlook Club, the Browning Club, and the Clover Club have given scholarships, the latter two Clubs cooperating to give the Browning-Clover Club Scholarship. Mrs. Louis A. Frothingham again provided the children of the elementary schools in town with a joyous afternoon on December 22 when she furnished gifts, ice cream, and candy, and for the North

Easton Grammar School and Unionville School children an entertainment and Christmas tree.

Extension of the Curriculum. The special class for retarded children was re-established at the opening of school in September, as requird by law, after a lapse of one year. The class was discontinued during the school year 1932-33 because of the drop in the number of pupils designated for this class by the State clinic.

With the approval of the School Committee, provision has been made for group instruction in instrumental music, and groups have been organized in the Junior-Senior High School, the North Easton Grammar School, the South Easton School, and the Eastondale School. The expense of this venture is borne by the parents of the children enrolled in the groups. About 40 children are now studying instrumental music in these groups. The instructor, Mr. Brabant, promises us an evening program by these groups in the spring.

At the South Easton School, Mrs. Newman is doing an interesting piece of work with the older boys of the School. With some help from the Brockton Y.M.C.A. a "Gra-Y" Club has been formed, which holds periodic meetings and discusses problems and projects close to the lives of the boys. While the club has been organized only since last September, the results on the attitude of the boys towards school and towards out-of-school problems are already noticeable. Mrs. Newman has been assisted by the other teachers of the building in this work, and their efforts are most commendable.

TEACHER CHANGES IN 1933

Three of our teachers retired at the end of the school year in June. Mrs. Sadie L. Hurst, principal of the South Easton School, retired on pension. Mrs. Anabelle P. Newman, a teacher at the South Easton School since 1920, was appointed principal of the building, and Miss Cecelia Harrington, a teacher of six years' experience, a graduate of the elementary course at the Bridgewater State Teachers College, and a former substitute teacher in Easton, was elected to the teaching vacancy caused by Mrs. Hurst's retirement.

Miss Henrietta Winchester retired in June on pension after 40 years as teacher of French in the Oliver Ames High School. Miss Helen Lupien, a graduate of Boston University and for the past six years teacher of French and English at the Oxford High School, was elected to fill the position made vacant by Miss Winchester's resignation.

Mrs. Mildred H. Shurtleff retired in June as teacher of geography and mathematics in the Junior High School, after thirteen years of highly successful teaching. Miss Mildred V. Mara, last year on half time employment, was given full time employment and assumed a portion of Mrs. Shurtleff's program, the balance of Mrs. Shurtleff's work being taken over by other members of the teaching staff.

In October the resignation of Miss Jessie A. Dix as principal of the North Easton Grammar School was received. Miss Johanna G. McFadden, a graduate of the Bridgewater State Teachers College and a teacher in Easton since 1922 was elected to the principalship. Miss Hilda Ramsay was transferred from the Poquanticut School to fill the teaching vacancy created by Miss McFadden's elevation to the principalship. Miss Elouise Sherman, a graduate of the local high school and of the four-year course at the Bridgewater State Teachers College last June, was elected to the Poquanticut vacancy. Miss Roberta Kellogg was transferred from the Union School to the North Easton Grammar School as teacher of the newly organized special class, effective in September, and John M. Harlow of North

Easton, a teacher of ten years' experience, was elected to fill the vacancy at the Union School.

SPECIAL REPORTS

Appended to this report are the annual reports of the principal of the High School, of the assistant principal in charge of junior high grades, and of the school nurse. All are worthy of careful reading.

IN CLOSING

I wish again to express appreciation of the wholesome support and cooperation which the schools have received from so many sources during the past year. Teachers and janitors have continued, in 1933, to live up to the high standards of service of past years. I feel that the achievements of our school nurse and school physician reached a new height in health work in 1933. I am appreciative of the hearty cooperation and help which you, members of the School Committee, have given for the good of the schools, not only as a committee in the eighteen formal meetings of the year, but in individual contacts as well.

Respectfully submitted,

GILBERT C. MANN.

January 11, 1934.

Report of the Principal of the High School

Mr. Gilbert C. Mann,
Superintendent of Schools,
North Easton, Mass.

Dear Sir:

I herewith present the annual report of the Oliver Ames High School for the year of 1933.

Of course, the most striking feature of the year has been the further reduction in the teaching staff made imperative by the financial stress of the period through which we are passing. We had felt that we had about reached the limit of retrenchment possible without abandoning some of the essentials of a good high school. We have, however, been able to reduce our staff about half of one teacher's time and still to maintain morale in our force and to secure fairly normal results in our class rooms. Frankly, I believe the junior high section of our school has been the branch of the organization which has really suffered by the enforced curtailment.

Junior high schools came into being in response to certain demands. It was felt highly important that something should be done to bridge the wide gap between the close relationship of pupil and teacher through grade six and the more casual contacts of pupil and five or six instructors in grades nine to twelve. Of even greater significance, it was intended that the junior high school years should be made an exploratory period, when the child should be studied carefully and his future course guided by a rather thorough knowledge of his ability, aptitudes, temperament, home conditions, and all of the other varying factors that go to make up the sum of the ever present individual differences.

To do these things successfully would mean that the junior high school would quite possibly be the most important cog in the educational machine, for one of the tragedies we most frequently encounter is the boy or girl who has missed the school road that should have been taken and is either attempting work beyond his ability, or who is far more often too late in finding an objective towards which he is willing to work. On the other hand, if the junior high is to approach these results it must have teachers enough and time enough to do much more, rather than much less than it has done in the past. We have never been able to do what we would like to do in this respect; but the last year in particular has wrecked much of the type of work that has been developed over the years Easton has had a junior high school. The club work, which has had to be discarded, used to serve, not to amuse the pupils, but to help them to find themselves and the things in which they had real interest. The home room organization, which has been greatly curtailed because of the new schedule, used to be of great value in enabling the teacher to study the child individually and to guide him into worth while activities. Even in our class work, we have had to use senior high school teachers in junior high classes to an extent that is to be regretted, not because the teachers aren't faithful and conscientious; and not because the junior high work represents any step downward from that of the senior high; but because these men and women are used to dealing with older pupils and the inclination to teach over the heads of the younger children is difficult to overcome, and is harmful to the very important group affected.

I am not pointing out anything new in the foregoing paragraphs; I certainly am not criticizing unfavorably the teachers, who are doing splendid work in their efforts to meet an unfortunate situation; and I understand fully that existing conditions make it impossible to improve matters at present. I would like, however, to call your attention once more that in my opinion the junior high grades have been the chief sufferers from the retrenchment program and to express hope that when conditions improve these grades may be among the first to be aided in the very important work they have to do. I believe this should be especially emphasized because whatever else the N.R.A. has done or has not done it has apparently barred children under 16 from industry rather permanently. This means that the junior high school will have to deal with the problem cases of children 14-16 years old who lack either the ability or the inclination to do academic work. We must provide for this type who are too old to be kept in the grades and who are not likely to reach the senior high school in any large number. If they cannot get jobs our only choice will be between the school and the street for these unfortunates. Easton will not feel the effects of this change to as great a degree as will most towns as we have for years shown an unusual retention of pupils up to the 16 year limit, but the new deal will intensify our problems of finding ways of dealing with these cases.

Scholastically, we are rather proud of our achievements. I hesitate to mention individuals because naming one or two graduates may seem to disparage excellent work on the part of others. However, I feel I ought to point out that President Sills characterizes one of our recent graduates as one of the outstanding students of years at Bowdoin, and that another of our graduates was one of two freshman at Boston University to be awarded exceptional honors last June. In the school today I believe we are getting results from the large majority of our pupils and that we are building up the idea that school after all is a place for work and that other scenes are better suited for those unwilling to make a reasonable effort. The graphs of ranks kept for the past two years and a half show on the whole a slight tendency toward better work.

Our athletic situation continues to be a difficult problem. Receipts from home games in football ran about half what we had considered normal. Part of this may have been due to the fact that we have not had a winning team, but more especially we believe it is because people simply have not had the money to spend. While our football team didn't win, the boys did play a good game and generally lost by small margins. With all last year's basketball team gone from the school (with the exception of one player who is over the age limit) and with most of last year's second team gone as well, Mr. Gemme will have a hard task to develop as good a team as we usually have had. Under these conditions we cannot expect a money making season. We have sponsored a visit of Tony Sarg's Marionettes from which we cleared about $45.00, -- enough to pay the bus bills for the fall season. We plan an evening's entertainment on February 2 when we will put on two one-act plays, followed by dancing. By rigorously keeping down expenses, we ought to clear well over $100.00 if we have the cooperation from the student body that has been in evidence this year. Part of any such proceeds, however, will have to go to the Eastoner as the Editorial board finds the same situation, with receipts from advertising cut nearly in half. As our athletics are over $150.00 in the red at present it is evident that we are not likely to balance our account this year. We are cutting expenses wherever we find it possible to to so and are considering very seriously substituting intra-school baseball for inter-scholastic baseball this spring.

Miss Dolan's work with the student council and the traffic squad, that of Miss Peabody with the class play, of Miss Nickerson and Miss Murray with the Eastoner, and of all the faculty with the classes they have in charge in their capacity as advisors have shown results that are distinctly worth while.

The class of 1933 gave us a State flag to complete our platform equipment. I hope that a fund may be started now, to which each class will contribute that will eventually purchase a moving picture machine for the school, and steps are being taken to secure agreement to such a plan.

Our Parent's Night this year seemed to us unusually successful. Of course, such a night does not present a true picture of the school, but on the other hand we probably saw more parents than would ever have been the case had the program followed a normal school day more closely. We feel it was worth the effort, and would suggest some variation of this idea be adopted for 1934.

The high school is not getting any direct results from the dental clinic this year as the work of the clinic is confined altogether to grades I-VI. We wish further extension of this work were possible but realize that the present plan will eventually prove productive of the best results. We are, however, getting the full benefit of the health program. It is not too much to say that we can point out in specific cases really remarkable results of the system of inspection and advice set up by the school department, not to mention the lesser gains that become a matter of course from the daily program.

Once more I thank you, and through you the Committee for the interest and assistance given the school in attempting to meet the needs of the community.

Yours truly,

GILMAN H. CAMPBELL.

Report of the Assistant Principal in Charge of Junior High Grades

Mr. Gilbert C. Mann,
Superintendent of Schools,
North Easton, Mass.

Dear Sir:

In accordance with your request I submit a report of the junior high school for the year 1933.

Since September one hundred eighty three pupils have been enrolled in grades 7 and 8, twelve more than last year. The number of teachers with special junior high training has been reduced. The junior high teacher must be trained for teaching pupils of the adolescent age. She must think of the development of the pupil -- the individual -- not in terms of the subject which she is teaching.

When the pupil reaches junior high school he requires strict discipline and the teacher should maintain that at all times. Individual characteristics can be noted. Poor habits should be eradicated, if possible, and good habits established.

The pupil must be trained to take responsibility. In detail this means he must be punctual, he must learn to take care of his books and other school property and have his tools in class ready for use. He must prepare and pass in assignments when due. He must realize that he has no right to damage property not his own. He must learn to get along with other people.

He must be shown how to study and trained until he does it right. There should be an ideal before him -- an ambition to make something worthwhile of himself, to use the opportunities which are furnished him. These opportunities are given to pupils in the Oliver Ames Junior-Senior High School and the ambition of the teachers is to have as many as possible avail themselves of them.

When I have talked to pupils about conduct, attitude and quality of work and what they might do to improve, their replies have been interesting. I have been told by some that they had received a D in a subject and would "get by" on that mark. A pupil who enters high school or goes out into the world to earn his own living with that spirit will not make for better citizenship.

Curtailment of teachers means less individual attention, less supervision of pupils, bigger classes, more classes for the teacher and more class instruction for the pupil, and less opportunity for character training which boys and girls of junior high age need.

A teacher meets six classes a day with two minutes between classes. Under these conditions she does class work almost entirely--the individual pupil who needs special help may not receive it.

This year all the six spelling and penmanship classes and two more mathematics classes, (making three in the latter subject), and an English class are taught by different senior high school teachers. The junior high age presents to the teacher problems which are not met in the senior high school. Although the senior high teachers much prefer high school work for which they have prepared, all of them are very conscientious and have rendered good service to the junior high pupils.

Our home room grouping has been arranged on an alphabetical basis. Room 208, Mr. Regan's home room, has seventh and eighth grade pupils. In the other four rooms there are either seventh or eighth grade pupils. As each room has but thirty-five desks the extra pupils have a desk in room 110 without a teacher. They report in room 112 for the opening exercises.

For arrangement of the classes and care of the groups I refer you to my report of last year in which the plan was explained in detail. The Stanford Achievement Test was given in the sixth grades in June and was a great help in arranging divisions of grade 7 for the opening of school in September.

The senior and junior high schools have the auditorium on alternate Wednesday mornings. Thus we have continued our general assembly periods.

Respectfully submitted,

MARY F. CONLEY.

Report of the School Nurse

To the Superintendent of Schools:

The third report of the present school nurse and the annual report of the Easton school nursing work for the year 1933 is submitted for your inspection, approval and study.

To give you a knowledge of the health of the school population the following table, showing the number of cases of contagious diseases in 1932 and 1933 may serve the purpose.

	Mumps	Measles	Chicken Pox	Whooping Cough	Scarlet Fever	Colds
1932	45	46	2	25	6	470
1933	33	1	90	0	17	500

Last year I acquainted you with the types of service rendered by the school nurse. Her activities are decidedly work of an educational nature; they do not include bedside nursing; the latter work is carried out by the district nurses. A review of the school nursing program is as follows:

THE ANNUAL PHYSICAL EXAMINATION

Each year a complete examination, which includes throat, mouth, heart, and lungs, (given to all beginners, all ten-year-olds, all freshmen, and all members of the athletic squads) or a brief examination which includes only the throat and mouth (given to all others) is made by the school physician, Dr. Robert B. Porter.

THE DENTAL SURVEY AND SERVICE

During the school years 1928-29 and 1929-30 comparitively little work was done regarding the correction of dental defects. In the school year 1931-32 when the present school nurse made the dental survey with Drs. Dunley and Smith an alarming condition was found. It was rare to find a mouth in perfect condition. During the year 1931-32 a thirty per cent correction was made against a seven per cent the previous year. Last school year, 1932-33, a thirty-three per cent correction was made. Last January a dental clinic was installed in the high school, the equipment being donated by the Easton Lions Club. Dr. Harold Smith was appointed, by the Lions Club with the approval of the school committee, as the dentist in charge. A record of the work accomplished is as follows:

DENTAL REPORT JANUARY 4 TO JUNE 20, 1933

School population, Grades 1 - 8	840
Number examined	840
Defects	715
Certificates awarded at time of exam.	125
Certificates from clinic	145
Certificates from family dentist	5
Partial dentistry	75

DENTAL CLINIC WORK -- 1933

Children receiving dental care	310
Cleanings	82
Temporary fillings	41
Permanent fillings	204
Extractions, temporary teeth	412
Extractions, permanent teeth	93
Free treatments	100

The fee charged for the work done is to cover the expenses of the clinic. It is low enough to reach nearly every family. The work of the clinic has been much appreciated by those it has served, and will be continued this year for grades one to six inclusive, with the hope of doing a large amount of preventive dentistry.

THE DIPTHERIA IMMUNIZATION CLINIC

This work is done under the direction of Dr. Robert B. Porter, (appointed by the Easton Board of Health), with the assistance of the school nurse. The clinic for the present school year was held in the fall. One hundred and twenty had the Schick test and one hundred and four received the toxin-antitoxin treatment.

We believe that next year the children will return to the clinic for Schick testing with somewhat happier faces, having in their memory the taste of a colorful lollypop raththan the sting of the needle. Dr. Porter was the generous contributor of the lollypops.

THE STATE CHADWICK CLINIC

We regret to tell you that this is the concluding year of the ten year program for eradicating tuberculosis, as carried on by the State Department. It is now hoped that the work will be continued by a County Staff. This we believe will be done. If so the work in the schools will be ultimately the same, -- taking care of contacts of tuberculosis, and in grades six, nine, and eleven, examinations of pupils whose parents give consent. The ten-year program has shown that tuberculosis is prevalent in those in the "teen" age; hence the reason for examination of pupils in the grades mentioned. In connection with this, we might say that as a result of the work of this clinic another case of tuberculosis was discovered last year and the patient was immediately helped by having sanatorium treatment.

THE SUMMER ROUND-UP

This service offers a pre-school physical examination to children getting ready to enter the first grade. Last year out of fifty-eight who entered for examination twenty-eight were found with dental defects and two-thirds were corrected. Two had diseased tonsils and had them removed before entering school.

CLASS TALKS

Periodic class talks are given by the school nurse, in the elementary grades, on health habits. This helps to emphasize some of the work done by teachers and also introduces new subjects, thus helping the children to take an interest in their own health.

HOME VISITING

Home visiting is a continuing educational program. Its purposes are to interpret the finding of physical examinations and to make plans for correction of defects and to check up cases of long continued absence and cases of illness where help is needed.

OFFICE HOURS

Th undersigned observes office hours at the high school building daily on school days from 8.15 to 8.35 a.m. and from 1.00 to 1.15 p.m.

The above report gives a little idea of the scope of the school nursing program.

Faithfully submitted,

GRACE M. MURCH, R.N.

FINANCIAL STATEMENT OF OAKES AMES BEQUEST

For the Year Ending December 31, 1933

RECEIPTS

High School Graduation

June 22, 1933

Program

1. "Festal March" — Cadman
   Orchestra
2. Invocation
   Rev. Ernest A. Whitnall
3. "The Lord is Great" — Mendelssohn
   Chorus
4. Address of Welcome by Class President
   Truman E. Pollard
5. Essay: "Massachusetts in Education"
   Margaret P. Harris
6. "Brown Bird Singing" — Haydn Wood
   Girls' Chorus
7. Essay: "Massachusetts in Literature"
   Jennie G. Merry
8. Essay: "Massachusetts in Art"
   Esther L. Anderson
9. "Sundown" — Londonderry Air
   Chorus
10. Essay: "Massachusetts in Science"
    Eleanor C. Lundgren
11. Essay: "Massachusetts in Music"
    Marion S. Henderson

12. Award of:
    - (a) Louis A. Frothingham Scholarship to Esther Linnea Anderson
    - (b) Browning - Clover Club Scholarship to Muriel Pauline Hatchfield
    - (c) Laurel Club Scholarship (restricted to residents of South Easton and Eastondale) to Dorothy Lucille Boyden
    - (d) Outlook Club Award (restricted to former pupils of the Union School and residents of the Club district) to Truman Edward Pollard
    - (e) Washington and Franklin Medal to Gladys Thomas
    - (f) Diplomas

      Mr. Heman Howard

13. Class Song Words by Marion S. Henderson

    Senior Class

14. "Star Spangled Banner"

    Chorus and Audience

15. Benediction

    Rev. James E. Downey

LIST OF HONORS

GENERAL HONORS

Graduated with Honors

Esther L. Anderson	Margaret P. Harris
Marion S. Henderson	Eleanor C. Lundgren

Jennie G. Merry

A pupil to be graduated with high honors must have an average of "A" in all subjects; to be graduated with honors he must have an average of "B".

SPECIAL HONORS

High Honors

Esther L. Anderson, Stenography, Bookkeeping

Honors

Esther L. Anderson, Typewriting
Emily Gibbs, Stenography
Eleanor Lundgren, Typewriting
Truman Pollard, Drawing

Special honors are awarded as follows: High honors are given to pupils whose yearly marks in the particular subjects are all "A's"; honors are given to those who have received but one "B", all other yearly marks being "A". Honors will not be given in subjects requiring less than two years in the curriculum nor to any pupil pursuing a subject less than the maximum number of years.

SENIOR CLASS 1933

Dorothea Katherine Adams
Thelma Elizabeth Allen
Esther Linnea Anderson
Ethel Augusta Anderson
Everett Warren Anderson
Dorothy Lucille Boyden
Henry Thomas Brooks
Einar Edgar Vincent Carlson
Thomas Michael Canty
William Beverly Coggon
Winslow Hayward Conant
Joseph Graham Dahlborg
Frank Leo Downey, Jr.
Myrtle Isabelle Drew
Doris Mildred Field
Emily Beatrice Gibbs
Beatrice Leona Hammond
Margaret Priscilla Harris
Muriel Pauline Hatchfield
Marion Spear Henderson
Bertram Richard Horne
Rachael Elizabeth Horton
Ruth Robertina Johnson
Jane Katherine Kent
Harold August Ledin
Eleanor Christine Lundgren
Jennie Greenleaf Merry
Emily Isabel Mowatt
Marion Ethel Mowatt
Henry Charles Peterson
Doris May Pittsley
Truman Edward Pollard
Ruth Lillian Swanson
Edna Frances Utton
William Whitten Walker
John Moors Wells
